Event Description:

The Department of Biotechnology organized a Webinar on “Efficient way of writing a scientific research paper for indexed journals” under the banner of The Institution of Engineers (India) Student chapter on 23-OCT-2020 at 02:00 pm in association with Shristi Forum, BT, SCE.

The objective of the webinar is to encourage and to guide the participants how to frame a research paper for publication. The goal or aim of a piece of writing: to express oneself, to provide information, to persuade, or to create a literary work.

There are four purposes writers use for writing. When someone communicates ideas in writing, they usually do so to express themselves, inform their reader, to persuade a reader or to create a literary work. In college, we mostly rely on two purposes for composition style writing, and those are to inform or to persuade the audience.
