Alumni Talk by Rashmi S Metri

Department of Information Science and Engineering at Sapthagiri College of Engineering has been practiced and adopted several good practices accordingly department of ISE has culture of inviting achievers, alumni, entrepreneur etc, in this regard department of ISE has invited its proud alumni Rashmi S Metri mainly to share her success story that she has come across in her journey of success. Another objective of inviting alumni is to deliver recent trends or emerging trends in technology and information science. She has been invited on 28/10/2017 to deliver expert lecture on “Emerging trends in Information Technology” the session began with kind of formal function where she was welcomed by Prof. Malathi K P and welcome speech was delivered by Prof. Ambika S where she spoke about the achievements of Rashmi S Metri as she has 5+ years experience in IT industry currently working in SLK software.

Rashmi S Metri shared a rich knowledge about Big data, Cloud Computing, Software Development Life Cycle (Agile scrum process) etc. And on this occasion HOD Dr. H.R Ranganatha spoke about technology and its importance to the community. Finally, alumna Rashmi S Metri has shared rich experience and her success story among the students also she has offered many useful tips with which others can also reach goal of their objective. Session ended up with vote of thanks by Prof. Meghana N M.
