DEPARTMENT OF CIVIL ENGINEERING

Engineers Day 2018

TECHNICAL TALK ON "FUTURE DEVELOPMENT- CIVIL ENGINEERING INTERACTION"

A Technical talk on "Future development- Civil Engineering Interaction" was conducted on 29th September 2019 on the Occasion of "Engineers day-2018" at seminar hall under the guidance of Dr.R.L.Ramesh, Head of the Department-Civil Engineering. Professor IIT-Madras (Retired), Dr.M.R.Pranesh visited our college to deliver a lecture on problems occurring due to the environmental pollution and the remedies for the upcoming construction problems by acquiring proper knowledge by using innovative teaching methodologies.

In his lecture, he emphasized about the pollution that is existing in the current situation and gave the example of the LED pollution in juhu beach. He also stated that people have lost thinking capacity and are dependent on others to do our work. The explanation also included that several commissions were formed to overcome all these problems like, All India Knowledge commission- May 2018, Washington accord, United Kingdom made a sera of sustainable curriculum (2004-2014) to enhance the knowledge such that it should be applicable when travelled to any part of the world. The explanation meant that, people should apply the learnt knowledge similar to that of how the Forensic psychologists work.

The explanation further extended giving a clear picture between the sustainable structural curriculum design and the sustainable engineering curriculum design which made understood that there are totally 1024 methods of learning and teaching methodologies.
