### Report on Intellectual Property Rights Topic: "Filing Indian and US Patents"

By

Dr. Shilpa Sivashankar, Ph D.

Post Doctral Fellow

KAUST, Saudi Arabia

Date: 01.04.2015

Time: 2 PM to 4 PM

Venue: ECE MTech Class Room, Academic Block, SCE.

The workshop commenced with welcoming the gathering by Prof. Vani A., Dept of ECE and narrated the objectives of the IPR. The faculties of all the department of SCE participated in the programme.

The Speaker begins the talk stating In the world of innovation, India has an old reputation. it remains a minnow when it comes to patents. The path to patents is paved with research and funding. While Indian companies, including startups, universities and research institutes need to direct their attention towards generating more patents if India has to emerge as a hub of inventiveness, it also calls for increased spend on research and development (R&D).

A US patent is granted by the United State Patent Office to an inventor, who has filed his application with it, whereas an Indian Patent is granted by the Indian Patent Office to an inventor, who has filed his application with Indian Patent office. A patent granted by a patent office is applicable within the geographical boundaries of that country only. A US Patent is applicable within USA only and has no effect in India, if the same inventor of the US patent has not filed his application in India for the patent grant. The filing the Patent application discussion was very informative for faculties.
