Report on Mini Project Exhibition 2022-23

An Event “Avishkar” Mini Project Exhibition has been organized by the Department of ISE on 03-03-2023 to exhibit projects implemented by students of 3rd semester. The event has begun with welcome address by Prof Swetha K B, Assistant Professor, Dept of ISE, SCE where she welcomed the chief patrons Sri G Dayanand, Chairman, SCE and Sri G D Manoj, Managing Director, SCE for their continuous support in organising any event. She welcomed Guest of Honour Dr K S Venkateshappa, Administrative officer, SCE, Dr H Ramakrishna, Principal, SCE, Dr H R Ranganatha, HOD, ISE, HOD's of various department, faculty members and students. Juries and other audience along with the invitees have taken the rounds and visited each of the groups and interacted with students.

The students had to exhibit their technical as well as presentation skills wherein they were given an opportunity to demonstrate their work (project model) with the help of charts, block diagrams or by using their laptops. Students of 3rd semester were very enthusiastic in explaining and appraising the work they carried out to the audience and juries. The faculties also encouraged the students, which brought more zeal and enthusiasm among the students to work harder towards the success. 28 teams participated for this event and each team came up with a unique project which clearly showed the technical ability of our students.

On this occasion HOD explained the importance of mini project at early stage of graduation, would certainly invoke their innovative ideas and help in inculcating required knowledge and other qualities. Principal in his address also emphasized about carrying out mini projects during their lower semester helps in doing better projects in their higher semesters. He urged students of 3rd semester to take up projects which are very useful to the society rather than doing projects of show case kind.

The judges not only gave the judgments but also helped and guided the students to make some improvisations in their project wherever required which in turn helped the students to work on their project in a better way. Invitees and other audience have expressed their appreciation and encouraged students to be more studious and be innovative in coming days. Overall, the event turned out to be a very successful one since many teams participated and were satisfied with their efforts .
