

## HASIRU-ECO CLUB REPORT

<b>Name of Event</b>	Climate change and its health effects
<b>Date</b>	11/4/2017
<b>Issues addressed</b>	Health effects caused by climate change
<b>Place of the event conducted</b>	Sapthagiri College Of Engineering
<p>HASIRU-ECO CLUB organized an event “Climate change and its health effects” at Sapthagiri college of engineering. The Program was organised by Prof. Prashanth (Convener) along with students. Students of SCE participated in essay writing on “Climate change and its health effects”.</p> <p>The essay writing topic had discussed with the concerned departments for the finalisation and got finalised. Later the same decided to conduct event on this issue. To make aware of students not to pollute the environment this is very hazardous to the humankind. Climate change refers to the change in the environmental conditions of the earth. This happens due to many internal and external factors. Climate change has become global concern over the last few decades. Besides, these climate changes are having various impacts on the Ecosystem and Ecology. Due to these changes, a number of species of plants and animals have gone extinct. Climate started changing a long time ago due to human activities but we came to know about it in the last century. One of the most common issues that are taking place rapidly is deforestation. Because of Climate change in the earth, temperature keeps on increases which lead to adverse effects on greenhouse. Hence, it is very essential to convey this information to the next generation to overcome these problems. In this regard, SCE had organised an essay writing and 35 members participated and became knowledgeable.</p>	
<b>Impact &amp; Sensitization</b>	Students are able to create awareness on Climate change.
<b>Faculty Coordinators</b>	Ramkumar M , Yusuf Maadar
