Phone: 080-28 372800/1/2 -228 Fax: 080-28 372797

To,

Dr. Shilpa Sivshankar
Post Doctoral Fellow
KAUST, Saudi Arabia.

Dear Madam,

Sub:Seminar on Research Methodology (RM).

The Sapthagiri College of Engineering is arranging seminar on Research Methodology (RM). We request you to kindly arrange for the lecture. The subject will be of interest to the Engineering college faculties. As per your request, Transport will be arranged for Pick-up and drop of the guest lecturer. The details of the event is provided below.

Date:04.08.2014

Time: 2PM to 4PM

Venue: ECE MTech Class Room , Academic Block.

Thanking you,

Dr. KN Ravi
Professor and Head
Department of Electrical and Electronics Engineering
Sapthagiri College of Engineering
Bengaluru

Principal
Sapthagiri College of Engineering

Report on

Topic: "Seminar on Methods For Formulating Research Problem"

By

Dr. Shilpa Sivashankar

Post Doctral Fellow

KAUST Saudi Arabia.

Date: 04.08.2014

Time: 2 PM to 4 PM

Venue: M Tech ECE Class room, SCE Bangalore.

The lecture started with an invocation , followed by seeking the blessings of the almighty. The stage was handed over to Dr. KN Ravi, Professor and Head Department of EEE to welcome the participants and guest Dr. Shilpa Sivashankar, Post Doctral Fellow from KAUST Saudi Arabia.

The Speaker started the session by defining objectives that will help us to develop effective research. It will help the decision makers evaluate the research questions your project should answer as well as the research methods your project will use to answer those questions. In order to do this, we have to identify the environmental variables that will affect the research project and begin formulating different methods to control these variables. Research problems range from simple to complex, depending on the number of variables and the nature of their relationship. Sometimes the relationship between two variables is directly related to a problem or questions, and other times the relationship is entirely unimportant. If we understand the nature of the research *problem as a researcher*, we will be able to better develop a solution to the problem.

To help us understand all dimensions, we might want to consider focus groups of consumers, salespeople, managers, or professionals to provide what is sometimes much-needed insight

into a particular set of questions or problems. There are always consequences to any course of action used in one or more projects. Anticipating and communicating the possible outcomes of various courses of action is a primary responsibility in the research process. The session was useful and motivated participant to formulate research problem statement.
